

Development Kits

Would you like to try Datakey products, risk-free?

We know how good our products are.

We also know that the chances are, you'll be able to use them to have a positive impact on your projects.

With that in mind, we'd love to give you a free "test drive" on one of our Datakey development kits, let you experience the products and understand what's so good about them.

Contact us to request
your development kit:

Tel: 01794 301439

Email: info@nexusindustrialmemory.com.

**RISK-FREE
GUARANTEE**

The investment is under £250 and 100% guaranteed. Try it out and if you don't think it's right for your business, we'll refund your entire investment.

Why Start with a Datakey Development Kit?

Benefits include:

- Simple software application plus sample source code for you to use in your application.
- Programmer that allows you to connect your product to your PC via USB or RS232.
- Keys and tokens of your choice.
- One board-mount and one panel-mount receptacle.
- In short, everything you need to test the products out and understand if they're right for you.
- Find out, risk-free, whether our products can improve your device.
- Dramatically reduce your R&D time.
- Build a proof of concept easily and with less hassle, enabling business buy in and funding for your design.
